Ir will have been seen from the report of the Legislative Council meeting in our issue of vesterday that the idea that Professor SIMPSON was not coming out to Hongkong with Mr. OSBERT CHADWICK was due to a misunderstanding. Professor Simpson in reality has accepted the offer of £250 a month during his visit, and travelling expenses, and is now starting for Hongkoug. The news is eminently satisfactory.' We wrote two months ago, when the statement was first circulated that Mr. CHADWICK had expert on the Commission which is to enquire into the sanitary condition of this Colony, that the fact that Mr. CHADWICK had for some years held the position of consulting engineer to the Hongkong Government rendered him scarcely the independent expert required, and emphasised the need of his medical colleague being a strong and capable man. This was written with no intention of reflecting on Mr. Chadwick's abilities, for that would have been foolish. but because, the Petition to the Secretary of State for the Colonies having asked for an independent expert, it was hardly gratifying that a former Government servant in Hongkong should have been chosen for the post, and one, moreover, closely connected in the past with Mr. Cooper, the real originator of our existing system of drainage. If, as

was suggested in Mr. CHAMBERLAIN'S despatch to H.E. the Governor, dated the 9th October, no action at present had been taken in regard to sending out also a medical expert on plague, it would have been impossible to regard the Commission but as foredoomed to failure. Now, however, that we are to have both Mr. Chapwick and Professor SIMPSON on the Commission, we may look forward with hope to the efforts which they will make toward the solution of the difficulties besetting the Colony: Professor Simpson, as our readers have already learnt, was Medical Officer of Health at Calcutta between 1886 and 1897, has been professor of hygiene at King's College, London, since 1898, and editor of the Journal of Tropical Medicine, and has been acting on a Medical Commission in South Africa investigating plague. We wrote on the 9th September last, when we first announced the probability of Professor Simpson's appointment, that it was "well viewed locally by those directly concerned with the drafting of the Petition, as he is not only a skilled sunitarian but also a strong man, who does not hesitate to give utterance to his real opinion." With such qualifications for the post on his SELECTIONS OF THE PUREST AND | part, combined with Mr. Chadwick's skill and local knowledge, it is surely not unreasonable to look forward to the first real attempt to grapple honestly with the situation. So far we have done no more than tinker with our sanitary evils, among which we include plague. The end of this year sees the commencement of a new policy. This week the cleansing and disinfecting of the City has begun; before the month is out the Commission will have arrived. 1902 should be a turning point in local sanitary history. This result has not been obtained without a tremendous struggle, nor until after the port has become a byword in the East. We have expressed freely in the past our opinion as to who have been to blame for the existence of such a state of affairs, and in so doing have voiced the general opinion. of Hongkong residents. All who have taken any part in the satitary agitation earlier in this year have now the satisfaction of seeing the first great step taken toward the goal which it is hoped we shall ultimately attain, the rendering of this Colony a healthy abode for Europeans and Asiatics

There has just been issued, fr. m the office of the Doily Press, a Directory of Protestant Missionaries in China and Japan for the year 1902. This publication is an off-shoot from the general directory which is sent out annually from this office. It is of a handy size and will doubtless be found to be very useful by all those interested in missions in the Far East-The contents are arranged alphabetically, and as the names of the missionaries are given in general fist, as well as in groups under the head of each mission, speedy reference is ensured.

It is stated in Shanghoi mandarin circles that when the Foreign Ministers called at the late Viceroy's residence to offer condolences to Marquis Li Ching-she, the eldest son and heir of Li Hung-chang, the young Marquis thanked them and, with streaming eyes, said that his parent's last words and commands to him wer to appeal to the various Foreign Ministers. "now that peace had been signed, not to go back upon what had been agreed upon "; and he prayed that "their Excellencies would act leniently in any matters that had not yet been settled between China and the allies."

News received in Shanghai last week from Knifeng stated that it was probable that the Throne would appoint H.E. K'uei Chun (Manchu), Viceroy of Szechuen, to the Vicerovalty of the Two Kwang provinces, in place of Vicercy Tao Mu, who was then supposed to be dead. H.E. K'uei Chun, says the N.-C. Daily News, is a progressive official who will doubtless continue the reform measures inaugurated, or intended to be inaugurated in Kwangtung by the late Viceroy. If this ness be true the highest three mandarins at Canton will all be Manchus, as the Governor, Tê Shou, is a Manchu, and the Tarter General of Canton is by necessity a Manchu also. However, H.E. Tao Mu is not dead yet.

About three months ago a certain Censor denounced H.E. Hsu Ying-k'nei, Vicercy of the Min-Chê provinces, on eight various counts, in consequence of which H.E. Vicercy Liu of Nanking was a cretly ordered by the Throne investigate into the truth of these charges. suspicions that the Censor in question got his tip and a promised reward from the Tartar General of Foochow, Ching Sing, who has always been a bitter enemy of the Viceroy Hsu, The Chinese musician who was murderously | Vicercy Liu Kung-yi has reported to the Throne against his brother Viceroy with the result that and hopes are entertained that he may recover. kinei to resign his post and attend at Court for some other appointment. It was rumoured in During last week there was reported in the Shanghai mandarin circles to the effect that H.E. Under the patronage of H.E. the Governor, a concert will be given in St. George's Hall to-night at 9.15 by Herr Johann Marquardt, violinist, and Madame Alexandra Breitschuck Marquardt, harpist, assisted by Mrs. Anderson, soprano; Mrs. Mudie, soprano; and Mr. George Grimble, pianist. The Siamese concerned in violating the frontier of the French Laos, as reported the other day by our Tonkin correspondent, have been arrested by the French, but it is stated from Bangkok that the incident is regarded in its true proportions by both Governments, and will not in any way affect their relations.

Manila papers state that the fate of the Filipino General Torres, recently tried Malolos for the murder of an United States soldier, still hangs in the balance. The finding of the military commission which heard the case is now in the hands of General Chaffee, and this very fact would indicate that the sentence is either along term of imprisonment or death. The Federal Party have strongly taken up the case and consider that Torres is a victim of gross miscarriage of justice. Their sympathy has not merely found expression in words, sbut in deeds, and a sum of \$2,000 has already been subscribed amongst themselves.

The appointment of Sir John French to succeed Sir Redvers Buller (says the Outlook) recalls the fact that until the outbreak of the present war he was regarded as a "shelved" man, owing to the censures passed on his handling of the cavalry in the manouvres of 1893. In South Africa he has shown more adaptability than any other general, and his success, especially at Kimberley, has made him something of a popular here. "Too much water" is the indictment prepared against Bombay in the course of a letter to the London Times by Mr. Russel Aitken, formerly Engineer to the Municipality of Bombay, who remarks :- " Hongkong and Bombay are the only two towns I know of that have two sets of drains, one for the house sewage and the other for the rainfall, and the plague clings to both cities in a way it does not to any others. Ten years ago, when in India, I warned the Municipality through the newspapers that their drainage and sanitary arrangements generally had been altered from what they were when I was Engineer, and the mortality was 25 per 1,000, and that they were all wrong together. I further warned them that they must not bring any more water, into the to send confidential deputies to the spot to city until the drainage was altered. But to no purpose; for although they had an ample water-The N. C. > that the German Press in its criticisms on British policy in South Africa is entirel oblivious to the stringency of the measures which are adopted by Prussia in dealing wit the Poles and the Danes. The Kölnische Volkszeitung, so far as I can observe, is the only German journal which is conscious of the charge of inconsistency to which its pro-Boer contemporaries constantly lay themselves open This Clerical journal says:- "Our newspapers compl in that England is depriving the Boars of their independence, that the Finns and the inhabitants of the Baltic provinces are oppressed in Russia and the Transylvanian Germans in Bungary. But let us not flatter ourselves that our policy towards the Poles is judged by a different standard abroad. . . . The Kreuz Zeitung justly observes that foreign newspaper articles are of no practical significance, since they cannot do the Poles any good. These foreign criticisms, however have a moral weight, if only because they entirely destroy the effect of any complaints we may make regarding the oppression of Germans abroad. People compare us with the Gracchi de seditione querentes, and Pussian journals scornfully recommend that the Baltic provinces should be ruled on the model of the Prussian province of Posen. A cable to the New York Tribane from London says: - A prominent official connected with prosecutions says America and England were responsible for the failure of the recent conference of police officials of the European powers directed against anarchism. " If our two countries,' he remarked, "had been willling to restrict the privilege of political asylum anarchism would have been doomed, for its advocates would be driven out of one country after another and compelled to abandon their principles. Anarchists will be found as long as England and America agree to shelter and protest them. Let those two doors be closed upon them and they will disappear from the face of the earth." The eminent specialist quoted above asserts with emphasis that England and America made a seri us mistake in rejecting the overtures for international police measures against the anarchists after the murder of the King of Ita'y, and that they ought to undo the mischief by reopening negotiations for a conference. His remedy for anarchism is the expulsion of anarchists from every foreign asylum

A HUGE SCHEME. The river leading to Chowchowfu is silting up at an accelerating speed. Particularly is this the case at a station called Meichi, about four miles distant from here. A syndicate consisting of wealthy merchants and officials has been formed to dredge the locality at Meichi and transport the mud and sand to Tai Chen Ban, which is situated at the western part of the harbour. The last named place has also been acquired by the syndicate and they are going to fill in the immense foreshore which they have reclaimed with the Chinese authorities' consent. Considering the yearly increase of commerce and the disproportionate lack of storage-room for goods, the newly formed company intend erecting large godowns at Tai Chen Ban. I hear the promoters between \$60,000 and \$80,000, but they are of opinion that they will later on derive a profit of five times the amount expended. The main shareholders are Yung Fu Yuan, Jen Sheng, and Bradley & Co's compradors. MISSIONARY INTERFERENCE.

A few days ago a fight occurred between a couple of boatmen who are engaged in ferrying passengers at a certain place at no great dismeant especially for foreigners, a few Chinese tance from here. Fights among the boat-people, on the most trivial provocation, are of daily of better class will be admitted, and a dispensary occurrence. In this instance it appears that two sampans collided, which led to an altercation and ultimately came to blows between the owners of the boats concerned. As one of the combatants is a native Christian and belongs to the Roman Catholic denomination, this body, without taking the least trouble to ascertain the rights and wrongs of the affair, intervened on behalf of their member and got the other boatman-who is no Christian-arrested. The inpecunious relatives of the latter repaired to the residence of the Roman Catholic missionaries and were refused admission. They were, however, informed by one of the head native preachers that they would have to pay \$500 as compensation (!) and 20 boxes of candles and fire-crackers before the release of their man could be effected. As they have not complied with these demands, the man is still in imprisonment. The interference of the missionaries in this case was uncalled for and utterly unjust. In spite of all their protestations and as everations to the contrary, the fact, nevertheless, exists that the members of the Romanist body are prone to mediate in such cases as cited above. Is it to be wondered then that the Chinese regard the missionaries with disrespect and resort to destruction and assault when full of rage engendered by the missionaries' lack of discretion?

The International Hospital, under the control of the Lazarist Mission, stands next to the Board of Rites in the most suitable site in the city. The buildings, costing some 30, 00 toels, are nearing completion. Already in the main building a few beds for patients are ready. Sisters of Charity will be from different countries, and speak different languages for the convenience of the patients, whether military or civil. The election of the site was a fortunate occurrence. Mgr. Favier formerly had a piece of land on Legation Street, which by the decision of the military authorities would be within the area of the military quarter of the Russian Legation. By o nferring together the Bishop that the consummation of their plans will cost gave up the original land and took in exchange glacis. The site being narrow, the Chinese authorities yielded a piece of the land within the area of the Board of Rites, thus providing sufficient quarters for the new and large Hospital. The Board of Rites is on the north, the American military quarter is on the south, across the Legation Street, the wall of the Imperial City, next the Chrienmen, is on the west, across the street allotted to Chinese trains, and the Gaselee Road, or former street of the Board of War, is on the east. THE U.S. REPRESENTATIVE IN TARIFF NEGOTIATIONS.

American papers give the following particulare about Mr. Thaddens S. Sharetts, who will represent the United States in the tariff negotiations in China :-

Mr. Sharetts is thoroughly equipped by education and experience for the important work intrusted to him. He is a native of Maryland, and has had a varied experience as a wholesale grocer, a lawyer and a newspaper man. In 1887 he was appointed United States appraiser at the port of Baltimore, and after States Board of General Appraisers. He still holds that position. His appointment as United States Commissioner to thing will not interfere life position. Mr. Sharretts will receive no additional compensation for his services in Chiva, but will be allowed all h sactual expenses.

The new Chinese Commissioner is expected to start from San Francisco, and on his way to China to make short stops at Honolulu, Manila and Yokohama. Mi Sharretts, in a recent statement in regard to his mission, said: "It seems quite probable that the meeting will begin in about six weeks after my arrival in Shanghai. THE BLOCKHOUSE SYSTEM IN

SOUTH AFRICA. The statement in the official telegram from Pretoria, published in the Times of October 22, that the "Constabulary line of posts between railways has been pushed out to Wilge River and Greylingstad" is worthy of considerable notice, as it is a more definite indication of the policy which Lord Kitchener is taking for the ultimate pacification of the newly-acquired colonies than has appeared recently in his official communications. When Lord Ritchoner took over the supreme command in South Africa he felt certain that the measures then in force, which entailed the garrisoning of various centres far removed from the railway, would not further the general pacification while it might induce the Boers to make desperate attacks. The alternative scheme which commended itself to him was, in the first place, to make his railway communications absolutely secure, and then steadily reclaim the country by pushing out from the secured base furnished by the permanout ways. In this we had the birth of the blockhouse system, which is now the system in vogue and which, as is shown by the telegram sirendy referred to, has reached dimensious which are not readily realised in this country. Twelve months ago the blockhouse was practically unknown. The railway lines at important points were defended by field works built by the troops which, though quite adequate to protect the immediate vulnerable vicinity, left large atretches of railway open to attack. Major Rice, R.E., who had been C. R. in Ladysmith during the investment of that and filling the intervening space with gravel. those thrown by fieldpieces or even pom-poms. by 10 or 15 men, were found sufficient to ward train-wreckers were wort to cover their opera-

TROPICAL MEDICINE.

At the opening of the third winter session of the London School of Tropical Medicine on the 16th ult., Dr. Patrick Manson, F.R.S., C.M.G., whose name is so well-known here, made an important speech on the functions of the School. We extract the following remarks: -At the outset of this scheme a great many men came forward, both in medical papers and elsewhere, with the statement that this socalled education in tropical disease was altogether superfluous. They said that the education was supplied by the ordinary medical centres. Now, men who make statements of that sort are either unacquainted with the subject of tropical disease or they have assigned to the The complainant stated that the defendant town, then invented the corrugated iron ordinary Medical School an amount of knowwas cook-boy in the Club. WORMS. It is a perfectly safe and mild pre-paration, and is especially adapted for Children. S.ld in Bottles, by all Dra gists. PROPRIETOR, THOMAS KEATING, LONDON.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Johert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto. THERAPION No. 1 markably short time often a few days only, removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irri-

tation of the lower bowel, cough, bronchitis, as thus, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well tried remedies have been powerless. THERAPION No. 2 for inches blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the altole system through the blood, and thoroughly eliminates every poisonous matter from the body.

banation, majorren vitality, elecplessuess, and all the

distressing consequences of early error, excess, residence in hot, unnealthy chimates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. TERAPION is sold by all the principal and Merecauts I soughout the world. Price in England 2/9 & 4/5. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a face-simile of word "THERAPHOR" as it appears on the Government Stamp (in white letters on a red ground) affixed to every package by under of Her Majesty's Hon.
